St.Anns Matric Hr.Sec School

Percentage - 56.17

2017 - 2018 10th

St.Anns Matric Hr.Sec School

Percentage - 66.6%

INTERNSHIP

Retech Solution : Artificial Intelligence

PROJECT WORK

WILDLIFE MONITORING USING ARTIFICIAL INTELLIGENCE

 **April 2024 - May 2024**

Objective

- AI-Based Wildlife Monitoring Project Developed an AI-driven system for monitoring wildlife, leveraging machine learning algorithms to analyze animal behavior and population dynamics. The project involved using computer vision for species identification, tracking movement patterns, and predicting trends. This solution enhances conservation efforts by providing real-time data and insights for wildlife management and protection.

MESSAGE ENCODER AND DECODER IN PYTHON

University Project

 **March 2023 - April 2023**
